

IOWA INTERFAITH **POWER & LIGHT**

We can no longer wait

Global climate change is one of the most pressing moral challenges facing our world.

We must act to solve climate change...

We can find solutions to climate change...

We know climate justice requires we bear each other's burdens equitably...

We are required to work with nature to find solutions to climate change...

We need political leadership, focused on the common good, to solve climate change...

We trust the scientific consensus that humans are causing it, and we are capable of fixing it...

Iowans are called to find and implement faith-based solutions to climate change.
